SUMMARY

Proficient in Data Visualization, Reporting, Dashboarding, and Insight Analysis with a Computer Science and Business Systems (CSBS) background. Skilled in SQL, Excel, Power BI, Tableau, and Python, with hands-on experience in developing interactive dashboards and transforming raw data into actionable business insights.

INTERNSHIP EXPERIENCE

Data Analyst Intern

HefShine Software training institute

02/2026 – 07/2026

Pune, Maharashtra

- Collected and consolidated raw client data from Excel and SharePoint sources. Analyzed and transformed data using Excel, Pivot Tables, and VLOOKUP to improve reporting efficiency and data accuracy.
- Designed Power BI dashboard for financial claims portfolio of 200+ client accounts to review the KPI; results in 25% improvement in collection rates and 30% reduction in claim denial rates, leading to faster revenue recognition
- Directed teams in coordinating efforts to address billing issues, facilitate payment discussions, and achieved a 15 % improvement in client satisfaction.
- Tools used: Power BI desktop, Power BI service, Power query, DAX function, Vlookup, Pivot Table

EDUCATION

Bachelor of Engineering - Computer Science & Business System

S G Balekundri Institute of Technology, Belgaum

CGPA : 8.50

2023 – 2026

Belgaum

Diploma

Motichand Lengade Bharatesh PolyTechnic, Belgaum

Percentage : 80.12

2018 – 2021

Belgaum

Secondary School

Vidnyan Vikas Mandir High School, Belgaum

Percentage : 74.24

2017 – 2018

Belgaum

TECHNICAL SKILLS

- Power BI Desktop
- Excel
- Tableau
- Data Modelling
- Power BI Service
- SQL
- DAX
- Data Visualization
- Power Query
- MySQL
- Python
- Data Cleaning

ACHIEVEMENTS

Python(Basic) HackerRank

SQL(Basic) HackerRank

PROJECTS

Business Finance Dashboard

Power BI | DAX | Power Query | Excel

- Developed an interactive finance dashboard to monitor revenue, expenses, profit, loan performance, and financial KPIs.
- Created dynamic dashboards with KPI cards, slicers, drill-through, and time intelligence measures.
- Implemented DAX measures and Power Query transformations for accurate financial reporting.
- Built executive-level visualizations to support business performance analysis and strategic decisions.

Healthcare Dashboard

Power BI | DAX | Power Query | Excel

- Built an interactive healthcare dashboard to analyze patient records, appointments, billing, and hospital KPIs.
- Developed KPI cards, drill-through reports, slicers, and dynamic visualizations for better decision-making.
- Performed data cleaning, transformation, and modeling using Power Query and DAX.
- Designed interactive reports to monitor patient trends, revenue, doctor performance, and operational efficiency.

Hand Gesture Controls

Python, OpenCV, MediaPipe

- Developed a real-time hand gesture recognition system using Python, OpenCV, and MediaPipe to enable touchless human computer interaction.
- Implemented hand tracking and gesture detection algorithms to control system functions such as volume adjustment, brightness control, and window navigation.
- Utilized computer vision techniques to accurately detect and track hand landmarks through a webcam, improving interaction efficiency and user experience.
